HUANGSI / PROJECT PROCUREMENT

Hospitality Furniture Solutions

SOLUTION PLANNING GUIDE

Coordinate reception, lounge seating and back-office workspaces for hospitality projects.

01 Product shortlist

Office Sofa
Lounge Chairs
Staff Desk

02 Layout & specification

Guest flow, upholstery requirements and installation zones. Confirm model codes, dimensions, finishes, quantities, access and installation responsibilities on the approved drawing.

03 Commercial confirmation

Request model-specific MOQ, sample options, production lead time, packing dimensions and mixed-container loading. These depend on the specification and order quantity; no fixed values are assumed.

04 Approval & delivery

Agree the product schedule and finish references. Review the sample or drawing, packing requirements, carton marks and destination before bulk production.

05 Send your RFQ

Include company, email, country, model list, quantities, preferred finish, destination and target delivery month. Attach your floor plan or furniture schedule. Request relevant project records where sharing is permitted.
